

MASQUERADE

Skin care face masks are one of the most popular products on the market for both clients and professionals – and for good reason. They work through an occlusion effect, trapping concentrated ingredients between skin and the mask for instant nourishment and benefits. Their formulations are highly customizable to help almost any skin condition or concern – brightening and tightening, hydrating and moisturizing, removing excess oil, evening out skin tone, and much more. Have a look at these masks industry professionals rely on to give skin its best life.
