

## DESCRIPTION

Eye Mousse is a velvety and soothing moisture rich product. It works hard to rehabilitate that fragile, delicate skin around the eyes. Its calming presence on the skin smooths fine lines and wrinkles and helps to enable that youthful glow just the way it should. With revolutionary ingredients ("Chronopeptide" and Carnosine (L) Benfotiamine) sleep deprived skin looks fresh, revived and less stressed. Eye Mousse is ready and willing to help maintain collagen integrity and to fight away inflammation. The skin around the eyes is fragile and should be handled with care... handled with Eye Mousse care!

## BENEFITS

- Smooths fine lines and wrinkles in eye area.
- Improves skin elasticity, texture, and appearance.
- Rehabs skin for a youthful, bright and healthy glow.
- Encourages collagen and elastin growth.

## PRESENTATION

**Retail:** .05 oz. Airless Pump Bottle

## SKIN TYPE

All Skin Types

## PH

5.05

## USAGE

Gently pat a small amount of Eye Mousse into the skin around the eyes until absorbed to accelerate hydration benefits.

## CAUTION

Do not use if skin is broken or cracked. A slight tingle or sense of activity on an extremely sensitive person indicates direct sensitivities to the oxygenating properties. Initial redness may occur due to the oxygenating action and bringing blood flow to the surface, subsiding quickly. Discontinue use if skin feels irritated, itchy or burns. For external use only. Avoid contact with eyes. Keep out of reach of children. Please check a Physicians Desk reference to make sure there are no contraindications with medications and ingredients.

## INCI INGREDIENT LIST

Aqua (Water), Glycerin\*, Caprylic/Capric Triglyceride, Bellis Perennis (Daisy) Flower Extract, Stearic Acid, Glyceryl Stearate, Cetearyl Alcohol, Squalane, Polysorbate 60, Cetyl Alcohol, Glutamylamidoethyl Imidazole, Sodium Hyaluronate (L), Palmitoyl Tripeptide-38, Carnosine (L), Benfotiamine, Hydrolyzed Hibiscus Esculentus Extract, Cassia Angustifolia Seed Polysaccharide, Perfluorodecalin, Perfluoroperhydrophenanthrene, Perfluorodimethylcyclohexane, Perfluorohexane, Borago Officinalis Seed Oil\*, Olea Europaea (Olive) Fruit Oil\*, Aloe Barbadensis Leaf Juice Powder\*, Tocotrienols, Tocopherol (D-alpha), Prunus Amygdalus Dulcis (Sweet Almond) Oil, Helianthus Annuus (Sunflower) Seed Oil, Retinyl Palmitate, Potassium Sorbate, Trisodium Ethylenediamine Disuccinate, Citric Acid, Elaeis Guineensis (Palm) Oil, Dextrin, Xanthan Gum, Phenethyl Alcohol, Caprylyl Glycol, Hydroxypropyl Cyclodextrin. \*Organic

## KEY INGREDIENTS

**Glutamylamidoethyl Imadazole:** Glutamylamidoethyl Imidazole is a potent chronopeptide that mimics the effect of sun exposure on circadian gene expression to help synchronize skin's circadian biorhythm. It provides anti-aging benefits and is an effective cell-communicating skin ingredient that helps stimulate the skin's natural defense system allowing it to produce Vitamin D. It helps maintain general skin maintenance with an all-over healthy complexion. Glutamylamidoethyl Imidazole in the formulation will reverse compromised cellular metabolism and help with regeneration and recovery.

**KEY INGREDIENTS - *continued***

**Carnosine Benfotiamine (L):** Carnosine Benfotiamine (L), chirally correct, is a natural component found in skin tissues and is a synthetic derivative of thiamine (Vitamin B1) that has been shown to have antioxidant properties and can help reduce inflammation. It acts as an antioxidant, scavenges free radicals responsible for causing oxidative stress, preventing premature wrinkles and fine lines. Carnosine opposes the pro-aging glycation effect by breaking down those products and reversing the stiffening process, delaying the aging process. Other carnosine skin benefits include increasing cells lifespan, accelerating wound healing, and reducing cellular damage (DNA).

**Sodium Hyaluronate (L) (Hyaluronic Acid):** Sodium Hyaluronate (L) (Hyaluronic Acid), chirally correct, is a naturally occurring glycosaminoglycan found throughout the body's connective tissue. It has been proven to moisturize the skin by attracting moisture in skin cells which reduces dryness and flaking by increasing skin hydration. It can also provide structure and volume to the skin, reducing the appearance of fine lines and wrinkles, leaving the skin plump. Sodium Hyaluronate can also reduce skin inflammation, playing a vital role in wound healing processes by promoting cell migration and proliferation. It is excellent for treating skin irritation like eczema, psoriasis and dermatitis stemming from a compromised barrier.

**Bellis Perennis (Daisy) Flower Extract:** Bellis Perennis (Daisy) Flower Extract carries a unique combination of polyphenols which work hard as tyrosinase inhibitors which naturally suppress melanin production, reduces the appearance of dark spots, and lightens and brightens the complexion naturally. The Daisy Flower Extract carries a high concentration of exfoliating acids and is very high in malic and tartaric acids, which aid in natural cell turnover. It is especially safe for sensitive skin types and is a natural nontoxic alternative for skin brightening. Daisy Flower Extract can help treat both existing and prevent future hyperpigmentation and sun damage. It also has astringent and calming properties and is used to refresh the skin whilst helping to rebalance oiliness.

**Palmitoyl Tripeptide-38 (Matrixyl):** Palmitoyl Tripeptide-38 (Matrixyl) is a peptide that stimulates and strengthens collagen and improves overall skin function. It is a protein fragment that helps skin maintain its structure. It is known to improve the appearance of multiple signs of aging, including fine lines, wrinkles, uneven skin tone, and dullness. Palmitoyl Tripeptide-38 penetrates deeply into the layers of the skin and activates the synthesis of six major components: collagen, fibronectin, hyaluronic acid, and laminin. It stimulates the skin matrix and the dermal-epidermal junction to plump fine lines and boost skin repair.
