

DESCRIPTION

Mist Me please! A face spritz that has been formulated to hydrate, nourish, and energize the skin. With proactive ingredients that actually work but do so in a very gentle manner. Mist Me works for all skin types, especially sensitive skin. With cocoa extract, skin will benefit from Phyto-endorphin, or mood enhancing, properties. A little spritz here and there will support skin's moisture and protect against environmental stressors. A soothing spritz to help heal, calm and detox to promote circulation. Antioxidant, anti-inflammatory, antibacterial and absolutely awesome. Boosting moods, boosting skin, and boosting life!

BENEFITS

- Anti-inflammatory, antioxidant, anti-aging, and mood enhancing.
- Supports moisture and protection against environmental stressors.
- Refreshing spritz to revitalize skin as often as necessary.
- May be used to set mineral makeup.

PRESENTATION

KEY INGREDIENTS

Theobroma Cacao (Cocoa) Extract: Theobroma Cacao (Cocoa) Extract is rich in polyphenols, magnesium, zinc, iron, calcium, beta-carotene, and Omega 6 fatty acids. These elements can protect the skin against environmental stressors, feed the skin, and produce a healthy glow. Cocoa Seed Butter, which is derived from Theobroma Cacao, is effective at preserving skin's moisture balance by restoring the lipidic layer of the skin. It is also a great source of polyphenol antioxidants to help protect against free radical damage and helps improve the appearance of cellulite and firms the skin. Cocoa Extract helps to restore the lipidic layer of the skin and reinforces the skin barrier.

Polygonum Cuspidatum (Giant Knotweed) Extract: Polygonum Cuspidatum (Giant Knotweed) Extract is a natural compound found in red grape skin, Japanese knotweed (Polygonum cuspidatum), peanuts, blueberries, and some other berries. It is a powerful antioxidant produced by some plants to protect them against environmental stresses. These antioxidants neutralize free radicals and are a natural anti-aging ingredient that fights toward hyperpigmentation and dark spots, enhances skin elasticity, and protects against oxidative stress and premature aging. Giant Knotweed can also promote the healing of burns by strengthening the immune system.

Globularia Cordifolia Callus Culture (Resistem) Extract: Globularia Cordifolia Callus Culture (Resistem) Extract is a plant extract with is known as the anti-aging bodyguard due to its ability to encourage a defense system in the heart of the skin. It provides skin with the power of self-protection and self-restoration. It also promotes detoxification (maintains proteasome activity), cell lifespan extension (stimulates sirtuin-1) and tissue regeneration (helps to preserve skin stem cells). This extract is a skin conditioning super-agent with anti-inflammatory properties that offer smooth, calming, soothing, redness and environmental protection benefits.

Hydrolyzed Pearl Powder: Pearl Powder has been used for thousands of years in Chinese and Ayurvedic medicine. Pearl Powder contains amino acids, calcium, and trace minerals and has many benefits for skin. It is detoxifying and is used as an anti-inflammatory and a relaxant. Pearl powder can help boost skin's reparative properties, by triggering the production of fibroblasts which assist with healing. Hydrolyzed pearls also accelerate new skin growth, regenerates collagen, and supports in healing acne. It can nourish the skin and slow down aging processes by improving the metabolism, supporting moisture and protection against environmental-damage effects, and is also known for detoxifying and brightening effects.
