

## DESCRIPTION

Nourish and Rebuild with Remedy Rehab Oil. A botanical oil blend that is lightweight with a low comedogenic rating that can penetrate and moisturize dull and dehydrated skin. An oil that supports overall skin health, repairs damage, and increases wound healing is an oil that is more than worth using. By strengthening the skin barrier to trap moisture, Remedy Rehab Oil uses its advanced blend of oils to correct texture, tone and repair damage while boosting overall skin radiance. Darling, Remedy Rehab Oil looks good on everyone!

## BENEFITS

- Nourishes, soothes, and calms sensitive skin.
- Strengthens the skin barrier to trap moisture and hydrate the skin.
- Increases radiance by boosting the skin's resilience and elasticity.
- Rehabilitates and rebuilds dull and dehydrated skin.
- Supports skin health, repairs damage, and increases wound healing.

## PRESENTATION

**Retail:** 1 oz. Amber Bottle with Dropper

**Professional:** 4 oz. Amber Bottle with Pump

## SKIN TYPE

All Skin Types.

## PH

N/A

## USAGE

Apply Remedy Rehab Oil to clean skin once or twice daily until absorbed. Always apply a sunscreen product to provide a protective barrier.

## CAUTION

Do not use on skin that is broken or cracked. For external use only. Avoid contact with eyes. Keep out of reach of children. Please check a Physicians Desk reference to make sure there are no contraindications with medications and ingredients.

## INCI INGREDIENT LIST

Caprylic/Capric Triglyceride, Simmondsia Chinensis (Jojoba) Seed Oil, Simmondsia Chinensis (Jojoba) Seed Wax, Heptyl Undecylenate, Squalane, Citrullus Lanatus Seed Oil, Plukenetia Volubilis Seed Oil, Limnanthes Alba (Meadowfoam) Seed Oil, Helianthus Annuus (Sunflower) Seed Oil, Calendula Officinalis Flower Extract, Tocopherol (Vitamin E), Citrullus Lanatus (Watermelon) Seed Oil, Hippophae Rhamnoides (Sea Buckthorn) Seed Oil, Betula Alba (Birch) Leaf Extract, Salvia Sclarea (Clary Sage) Oil, Eucalyptus Globulus Leaf Oil.

## KEY INGREDIENTS

**Simmondsia Chinensis (Jojoba) Seed Oil:** Simmondsia Chinensis (Jojoba) Seed Oil is mainly a moisturizing agent that works to seal the skin with a protective barrier to keep it hydrated. It also contains natural forms of Vitamin E, which makes it an excellent antioxidant to protect the skin from free radical damage and premature aging. Jojoba Oil is skin nourishing and can help promote collagen production and eases skin irritations. Jojoba is an anti-inflammatory oil that also can help soothe skin drying conditions, soothe sunburns, control sebum production, and improve wound healing.

**Squalane:** Squalane is a lightweight emollient that is great for softening or smoothing the skin, as it may help to support the natural outer barrier of the skin. It is also a good option for dry and irritated skin, as it has been shown to help calm redness and inflammation. Squalane is a skin-identical emollient that helps support the skin's natural barrier protection and skin moisturization. It can boost radiance, skin smoothness, make skin feel plumper and more supple, improve texture, and make fine lines less noticeable. Squalane also can alleviate the appearance of temporary redness and inflammation and help with acne and eczema.

**KEY INGREDIENTS - *continued***

***Citrullus Lanatus (Watermelon) Seed Oil:*** Citrullus Lanatus (Watermelon) Seed Oil fatty acid profile made up of linoleic (51%), oleic (36%), stearic (5%), and palmitic acids (6%). Due to the linoleic acid, which is an omega-6 fatty acid to build up the skin's lipid barrier, it improves barrier function, and protects from environmental damage. It helps restore abnormal and inflamed skin due to acne by balancing out the oleic acid that is naturally abundant in sebum. It contains Vitamins A and E, which are powerful antioxidants that fight off free radicals caused by UV exposure. Watermelon Seed Oil is incredibly hydrating, sealing moisture in the dermis and can help reduce TEWL (Trans Epidermal Water Loss) and help skin retain moisture. Watermelon Seed Oil helps even skin tone, balance complexion and improve the skin's elasticity while improving blood circulation.

***Plukenetia Volubilis Seed Oil (Sacha Inchi Seed Oil):*** Plukenetia Volubilis Seed Oil (Sacha Inchi Seed Oil), non-comedogenic, is rich in nutrients like omega-3 and omega-6 fatty acids, protein, and antioxidants. Sacha Inchi Extract can introduce moisture to the skin and lock it in to protect against the damaging effects of sun exposure, regulate oil production, and maintain elasticity. This improves hydration, reduces transepidermal water loss, and normalizes skin's barrier functions. Due to its antioxidant properties, it combats free radicals and fights the signs of premature aging. Sacha Inchi Oil also has astringent and anti-inflammatory properties that facilitate the healing of wounds and burns, reduces discoloration, and tightens the skin.

***Limnanthes Alba (Meadowfoam) Seed Oil:*** Limnanthes Alba (Meadowfoam) Seed Oil, non-comedogenic, is a plant-based oil derived from meadowfoam seeds and is composed of mostly fatty acids and antioxidants and is used as an emollient. It locks in moisture, softens skin, hydrates, fights free radicals, and absorbs easily into the skin. Meadowfoam Seed Oil replenishes lost moisture, which means that it also helps to reduce the appearance of any fine lines or wrinkles. Meadowfoam Seed Oil is similar to natural sebum and suitable for all skin types. For acne, it is not greasy, and balances the skin's natural sebum production. The powerful antioxidant properties of this oil help to prevent sun damage and reduce oxidative stress.
