

DESCRIPTION

Step right up to a lotion that, quite simply, contains everything the skin barrier requires to repair and defend against future damage. Without a healthy skin barrier, no amount of anti-aging ingredients will be of value. Start with Vital Lipid Lotion to hydrate, repair, strengthen and defend skin's delicate barrier function. The reduced redness, inflammation and discomfort will leave the skin feeling replenished and repaired. This moisturizer works hard to calm reactive skin and gives the barrier the health and strength it needs to combat against sensitivity triggers. The ultimate lotion and the ultimate way to repair and defend skins barrier function, Vital Lipid Lotion.

BENEFITS

- Repairs and defends skin against future environmental damage.
- Hydrates, repairs, and strengthens the skin's delicate barrier function.
- Supports collagen synthesis to increase elasticity and improve texture.
- Reduces redness, inflammation, and discomfort.

PRESENTATION

Retail: 1.7 oz. Airless Pump Bottle

SKIN TYPE

All Skin Types.

PH

5.6

USAGE

Apply Vital Lipid Lotion to clean skin once or twice daily. Always apply a sun screen to provide a protective barrier.

CAUTION

Do not use on skin that is broken or cracked. For external use only. Avoid contact with eyes. Keep out of reach of children. Please check a Physicians Desk reference to make sure there are no contraindications with medications and ingredients.

INCI INGREDIENT LIST

Aqua (Water), Caprylic/Capric Triglyceride, Simmondsia Chinensis (Jojoba) Seed Oil, Glycerin*, Pentylene Glycol, Hydrogenated Phosphatidylcholine, Butyrospermum Parkii (Shea) Butter, Propylene Glycol, Phenoxyethanol, Mirabilis Jalapa Flower/Leaf/Stem Extract, Squalane**, Jojoba Oil/Macadamia Seed Oil Esters, Squalene**, Phytosteryl Macadamiate, Ceramide NP, Phytosterols, Lactobacillus Ferment Lysate Filtrate, Fructooligosaccharides (D-beta), Biosaccharide Gum-4, Helianthus Annuus (Sunflower) Seed Oil, Tocopherol, Hamamelis Virginiana (Witch Hazel) Water, Ethylhexylglycerin, Xanthan Gum, Propanediol, Hydroxyethylcellulose, Butylene Glycol, Trisodium Ethylenediamine Disuccinate, Alcohol, Citric Acid, Sodium Hydroxide, O-cymen-5-OL. *Organic. ** Vegetable derived

KEY INGREDIENTS

Mirabilis Jalapa Extract (Four O' Clock Flower): Mirabilis Jalapa Extract (Four O' Clock Flower) is known for its anti-inflammatory properties and is used in skincare products to calm reactive skin, reducing discomfort (like sensations of pain, itching and stinging) and visible redness. It also improves skin's long-term resilience against sensitivity triggers and protects from free radical damage and environmental stressors. Mirabilis Jalapa Extract supports skin's barrier function by deeply penetrating and improving hydration levels. This extract is deeply nourishing, can be used to treat wounds and cuts, and helps to rebuild the health of the skin.

Fructooligosaccharide (D-beta): Fructooligosaccharides (D-beta) chirally correct, also known as oligofructose or oligofructan, is a versatile ingredient found in various cosmetic products. It is an oligosaccharide produced enzymatically from sugar beets, primarily composed of kestose, nystose, and fructosyl nystose and its primary functions are as a humectant and a skin-conditioning agent. Fructooligosaccharides help maintain a healthy microbiome which is the first line of defense against harmful external stressors. It strengthens skins' immunity and promotes healthy probiotic bacteria growth. As a humectant, Fructooligosaccharides attract and retain moisture, helping to keep the skin hydrated and can improve the skin's appearance and texture by promoting softness, suppleness, and overall health.

Lactobacillus Ferment Lysate Filtrate: Lactobacillus Ferment Lysate is used in cosmetics for its conditioning, antimicrobial, and nourishing properties. It helps to keep the microbiome in balance while increasing skin tone and elasticity, minimizing wrinkles, providing deep hydration, and increasing cell turnover. It also reduces redness and irritation. Lactobacillus Ferment Lysate can accelerate skin repair by promoting cell renewal and increasing collagen production. By simultaneously increasing the removal of skin flakes, the hydration of the skin is improved, which ensures that wrinkles are minimized.

Simmondsia Chinensis (Jojoba) Seed Oil: Simmondsia Chinensis (Jojoba) Seed Oil is mainly a moisturizing agent that works to seal the skin with a protective barrier to keep it hydrated. It also contains natural forms of Vitamin E, which makes it an excellent antioxidant to protect the skin from free radical damage and premature aging. Jojoba Oil is skin nourishing and can help promote collagen production and eases skin irritations. Jojoba is an anti-inflammatory oil that also can help soothe skin drying conditions, soothe sunburns, control sebum production, and improve wound healing.

Helianthus Annuus (Sunflower) Seed Oil: Helianthus Annuus (Sunflower) Seed Oil is a non-comedogenic oil that is rich in nutrients such as calcium, iron, magnesium, zinc and Vitamins A, K and E, it is used effectively against inflammation and general irritations of the skin. Being very high in Vitamin E, it acts as an emollient which traps moisture and keeps skin well hydrated. It also helps prevent damage to cells by ultraviolet light and aids against premature aging of skin by protecting the collagen and elastin integrity. Sunflower is a source for beta-carotene which is converted to Vitamin A with benefits of protection from sun damage and free radicals. Omega-6 (linoleic acid) which is found in Sunflower Oil, soothes the skin, maintains barrier function, retaining moisture and assists with cell development and treating disorders such as eczema, acne, and scarring.
