

# PRODUCT DATA SHEET

## Clarify Wash *renew & revive*

### DESCRIPTION

This refreshing gel-based cleanser is formulated with mandelic acid to clarify the skin and deliver deep pore cleansing without dryness or irritation. Ideal for oily, congested, or dull skin, it helps control excess sebum, clear breakouts, and fight acne-causing bacteria. Mandelic acid gently retexturizes the skin and lightens discoloration, while licorice root extract supports sebum regulation and provides additional brightening benefits to target uneven skin tone. Antioxidant-rich ingredients work to detoxify, refresh, promote healthy barrier function while promoting a visibly smoother, brighter, and more balanced complexion.

### BENEFITS

- Provides a deep clean to remove impurities, buildup, and excess oil.
- Supports clearer skin by reducing breakouts and preventing future congestion.
- Brightens and evens skin tone by targeting dullness, discoloration, and redness.
- Improves texture and clarity without over-drying, while supporting overall barrier health.

### PRESENTATION

**Retail:** 3.4 oz., and 6.5 oz. White Pump Bottle

**Professional:** 16.7 oz. Amber Pump Bottle

### SKIN TYPE

All Skin Types, especially oily and acneic

### PH

4.5

### USAGE

Cleanse twice daily by applying Clarify Wash and emulsify with water. Gently lather in circular motions on face, neck and decollete. Rinse well and gently pat skin dry.

### CAUTION

Do not use if the skin is broken/cracked. For external use only. This product contains alpha hydroxy acids (AHAs) that may increase your skin sensitivity to the sun and increase the possibility of sunburn. Use sunscreen and limit sun exposure while using the product. For external use only. Avoid contact with eyes. Keep out of reach of children. As a precaution, do not use it during pregnancy and breastfeeding. Please check a Physicians Desk reference to make sure there are no contraindications with medications and ingredients.

### INCI INGREDIENT LIST

Water/Aqua/Eau, Decyl Glucoside, Sodium Lauroamphoacetate, Propanediol, Glycerin, Cocamidopropyl Hydroxysultaine, Lauryl Glucoside, Gluconolactone, DL-Mandelic Acid, Coco-Glucoside, Glyceryl Oleate, Sclerotium Gum, L-Arginine, Glycyrrhetic Acid, Glycyrrhiza Glabra (Licorice) Root Extract, Glucosyl Hesperidin, Ananas Sativus (Pineapple) Fruit Extract, Tremella Fuciformis Sporocarp Extract, Betaine, L-Sodium Hyaluronate, 3-O-Ethyl-L-Ascorbic Acid, Bromelain, Papain, L-Lactic Acid, Punica Granatum Seed Extract, Citrus Paradisi (Grapefruit) Fruit Extract, Citrus Aurantium Dulcis (Orange) Peel Extract, Rubus Occidentalis Fruit Extract, Fragaria Vesca (Strawberry) Fruit Extract, Vaccinium Angustifolium (Blueberry) Fruit Extract, Malus Domestica (Apple) Fruit Extract, Citrus Reticulata (Tangerine) Peel Extract, Citrus Limon (Lemon) Fruit Extract, Citrus Clementina Peel Oil, Vanilla Planifolia Fruit Extract, Lavandula Angustifolia (Lavender) Flower/Leaf/Stem Extract, Ribes Nigrum (Black Currant) Bud Extract, Hydroxyacetophenone, Tetrasodium Glutamate Diacetate, Xanthan Gum, Prunus Serrulata (Cherry Blossom) Flower Extract, Saccharum Officinarum (Sugar Cane) Extract, Salix Alba (Willow) Bark Extract, Citrus Limon (Lemon) Fruit Extract, Glutamate Diacetate, Sclerotium Gum, Xanthan Gum, Pyrus Malus (Apple) Fruit Extract (and) Citrus Aurantium Dulcis (Orange) Fruit Extract, Cyclodextrin, Phenethyl Alcohol, Pentylene Glycol, Caprylyl/Capryl Glucoside

## KEY INGREDIENTS

**Mandelic Acid (DL)**, chirally correct, is a naturally occurring form alpha hydroxyl acid (AHA) and is derived from bitter almonds. It can effectively retexture the skin but is a gentle acid that helps with acne, skin tone, skin texture, hyperpigmentation, and the effects of aging. Mandelic Acid is a powerful exfoliant that removes dead skin cells and accelerates cell turnover to help improve texture and complexion problems. It also promotes collagen production, increases skin elasticity, and reduces fine lines and wrinkles. Mandelic Acid works to inhibit melanin production and lessen hyperpigmentation, dark spots, and discoloration. For acne, this acid helps control sebum production, unclogs pores and helps reduce acne pitting and scarring. Mandelic Acid has antibacterial and anti-inflammatory effects, is less irritating on the skin than other acids, and an ideal choice for a wider range of skin conditions and types looking for an improved appearance with fewer side effects.

**Glycyrrhetic Acid and Glycyrrhiza Glabra (Licorice Root) Proprietary Blend**, rich in glycyrrhetic acid and glabridin, is a multifunctional skincare ingredient known for its brightening, calming, and oil-controlling properties. It helps reduce the appearance of dark spots and hyperpigmentation by inhibiting tyrosinase, the enzyme responsible for melanin production, while also offering antioxidant protection to prevent new discoloration. Glycyrrhetic acid works to soothe redness, irritation, and swelling, making it beneficial for sensitive skin and conditions like eczema and atopic dermatitis. Licorice root also supports collagen and elastin regeneration, promotes a more even skin tone, and helps regulate sebum production, making it especially effective for acne-prone and oily skin types. Its UV-blocking enzymes further protect the skin from future damage, contributing to a healthier, clearer complexion.

**Arginine (L)**, chirally correct and classified as a semi essential amino acid, offers multiple benefits in skincare due to its role in wound healing, hydration, and skin regeneration. It helps decrease inflammation, supports tissue formation and remodeling, and accelerates healing by improving cellular repair processes. L Arginine stimulates blood flow and improves poor circulation by releasing nitric oxide in the blood, enhancing oxygen and nutrient delivery to the skin. It functions as a natural moisturizing agent from within, increasing visible hydration levels. L Arginine, as an antioxidant, supports immune function, promotes collagen production, elasticity, and overall skin vitality. Additionally, it plays a key role in strengthening the skin's barrier function, helping to protect against environmental stressors and maintain long term skin health.

**Tremella Fuciformis Sporocarp Extract (snow mushroom extract)**, is a powerful skincare ingredient known for its exceptional ability to hydrate, protect, and rejuvenate the skin. Rich in polysaccharides, it helps bind moisture to the skin reportedly up to 400 times more hydrating than hyaluronic acid, making it ideal for improving hydration and overall skin texture. Tremella extract also supports collagen production, enhancing skin elasticity and firmness while reducing the appearance of fine lines and wrinkles. Its antioxidant and anti-inflammatory properties help combat free radicals, soothe irritation, and reduce UVA-induced damage. Additionally, it contributes to barrier repair and skin brightening, giving the skin a more radiant, healthy appearance. This multifunctional ingredient is especially beneficial for dry, aging, or environmentally stressed skin..

**Ribes Nigrum (Black Currant)** seed oil contains vitamins C, E, B1, B5, and B6, along with iron and manganese. These nutrients contribute to overall skin health. Thymoquinone, a phytochemical in black currant seed oil, reduces skin inflammation. Lauric acid, another component, helps combat microbial skin infections. The oil is rich in gamma-linolenic acid (GLA), an omega-6 fatty acid with anti-inflammatory effects. Black currant seed oil is a remedy for eczema (dermatitis) and calming atopic skin flare ups. It helps alleviate irritations and dry, itchy, or scaly skin, addressing deficiencies in essential fatty acids. Black Currant Seed Oil packs a powerful punch against environmental aggressors with its antioxidant prowess. Lastly, it boosts skins' moisture, and the natural healing process, increasing cell repair and function.
