

Refine Polish

renew & refresh

DESCRIPTION

Refine Polish is a multitasking exfoliating treatment designed to smooth, brighten, and renew the skin for a softer, more radiant complexion. A blend of gentle jojoba esters, exfoliating enzymes, willow bark, and brightening botanical extracts helps remove buildup, refine texture, and support clearer-looking skin without over-drying. Antioxidant-rich ingredients, soothing peptides, and nourishing hydrators work together to calm visible redness, replenish moisture, and leave skin balanced, refreshed, and glowing.

BENEFITS

- Gently exfoliates to smooth and refine skin texture
- Brightens dull, uneven-looking skin for added radiance
- Helps calm visible redness while supporting hydration
- Leaves skin soft, polished, and refreshed without over-drying

USAGE

Apply Refine Polish to wet, cleansed skin in gentle circular motions once or twice a week. Product may be mixed with Quiet Wash for more gentle results or daily use.

CAUTION

Do not use on skin that is broken or cracked. For external use only. Avoid contact with eyes. Keep out of reach of children. Please check a Physicians Desk reference to make sure there are no contraindications with medications and ingredients.

INCI INGREDIENT LIST

Water/Aqua/Eau, Cocamidopropyl Betaine, Jojoba Esters (Beads), Propanediol, Glycerin*, Polyacrylate Crosspolymer-6, Gluconolactone (Sodium Gluconate), Bixa Orellana Seed Extract, Kalanchoe Pinnata Leaf Extract, Protease, Lipase, Cocos Nucifera (Coconut) Fruit Extract, Tapioca Starch, Acacia Senegal Gum, Acetyl Heptapeptide-4, Acetyl Hexapeptide-49, Pinus Cembra Wood Extract, Yogurt Extract, Allantoin, Glycyrrhiza Glabra (Licorice) Root Extract, Arctostaphylos Uva Ursi Leaf (Bearberry) Extract, Salix Nigra (Willow) Bark Extract, Prunus Serrulata (Cherry Blossom) Flower Extract, Phytic Acid, Alcohol, Pentylene Glycol, Leuconostoc/Radish Root Ferment, Panthenol (D), Caprylyl Glycol, Sodium Hydroxide * Certified Organic

KEY INGREDIENTS

Arctostaphylos Uva Ursi (Bearberry) Leaf Extract: A natural antioxidant-rich extract known for helping brighten uneven skin tone and minimize the appearance of discoloration. Bearberry leaf extract supports a clearer, more radiant complexion while helping protect skin from environmental stressors that can contribute to dullness and visible aging.

Refine Polish

renew & refresh

KEY INGREDIENTS - *continued*

Prunus Serrulata (Cherry Blossom) Flower Extract: A soothing botanical extract packed with antioxidants that help calm and revitalize the skin. Cherry blossom extract supports hydration and softness while helping improve the appearance of dullness, leaving the complexion looking refreshed, radiant, and more youthful.

Bixa Orellana Seed Extract: Derived from the annatto plant, this antioxidant-rich extract helps defend skin against environmental stressors while supporting a brighter, healthier-looking complexion. Known for its soothing and revitalizing properties, it helps improve the appearance of dull, tired skin and promotes a smoother, more radiant overall appearance.

Kalanchoe Pinnata Leaf Extract: A moisture-supporting botanical extract valued for its soothing and replenishing properties. Kalanchoe pinnata helps calm dry, stressed skin while supporting hydration and softness. Rich in antioxidants, it helps protect against environmental aggressors and leaves the complexion looking refreshed, balanced, and healthy.

Pinus Cembra Wood (Swiss Stone Pine) Extract: Pinus Cembra Wood (Swiss Stone Pine) Extract is a concentrated extract of Swiss Stone Pine, called King of the Alps, and contains pinosylvin. This is known to reduce inflammation through several biological pathways. It calms skin hypersensitivity and reduces local skin redness and color irregularities resulting from inflammation. It also visibly reduces redness and age spots and creates a more even toned skin for a youthful radiance. Pinosylvin is also known to have antioxidant, energizing, radiance, and brightening properties and protects from the effects of environmental stress.

Acetyl hexapeptide-49: Acetyl Hexapeptide-49 can reduce inflammation and relieve itching by inhibiting inflammatory factors, while improving the tingling sensation and soothing the skin. Acetyl Hexapeptide-49 improves the proliferation and differentiation of cells and helps repair the skin barrier. It also has a moisturizing effect, which can increase the water content of the skin and make the skin smooth and elastic. It increases hydration, preventing the skin from flaking, restoring suppleness and softness.

Acetyl heptapeptide-4: Acetyl Heptapeptide-4 is a synthetic peptide that was developed to maintain the skin's microbiota balance. It promotes the growth of beneficial bacteria acting as a probiotic while boosting skin's natural defense systems against harmful microbes. Acetyl Heptapeptide-4 promotes a balanced microbiome, it also reduces skin sensitivity and lessens discomfort, scaling, and irritation. It improves the skin's natural defense systems and improves hydration exposing a healthy, revitalized, and radiant appearance.
